

I can't go home to see my family

Coronavirus is a new virus.
Coronavirus is also called COVID-19.

Coronavirus can affect people's lungs and airways. It can make people feel sick.

Coronavirus can spread from person to person.

The government says that everyone has to stay at home for the moment to stop Coronavirus from spreading.

This means that I can't go home to see my family.

My family can't come to see me.

This is very hard.

Instead, I can make phone calls, send texts, and send emails. Staff can help me with this.

I can talk to my family using Skype or Facetime. Staff can help me with this.

I can smile and wave at my family on Skype. I can see them when this is over.
