1. Assessment Overview

Quantity and Number M1NO5 is a QQI Level 1 minor award. At QQI Level 1, a student is graded as Successful or Referred:

Successful means that all the learning outcomes from the Component Specification have been demonstrated to an appropriate standard in the Students Portfolio of Assessment.

Referred means that the portfolio of assessment needs further work by the student before they can demonstrate the standard and achieve certification from QQI. When a student has not achieved the minimum standards for an award the grade is recorded as referred.

This minor award contains the following assessment technique: Portfolio Collection of Work (100%)

This minor award is assessed by a portfolio or collection of work. This is a collection of work produced by the learner over a period of time that demonstrates achievement of a range of learning outcomes.

All learning outcomes must be achieved to get a Successful grade.

Learners will be given an assessment completion date by their course tutor. If learners do not complete their assessment by this date, they will be given a referred result.

1.1 Assessment Criteria for Tutors

Tutor best practice is to ensure that all learners have the opportunity to demonstrate their learning, carry out each assessment and present it to the best of their ability.

Each module/course will have an assessment framework and a range of assessments and tasks for learners to complete.

The assessment brief clearly communicates to learners all assessments and learning tasks that need to be successfully completed to obtain the respective QQI qualification.

The assessment brief is structured to support learners to engage with and complete all module/course learning outcomes.

1.2 Assessment Brief

The assessment brief must be clearly laid out for the learner.

The assessment brief and agreed deadline must be communicated to the learner by the course tutor.

Learning outcomes must be mapped in the assessment.

The marking allocation for assessment must be clearly stated on the assessment brief.

1.3 Learner Declaration

Learners must ensure that all work presented is learner's own work. The learner will sign the learner declaration section. Signing this section

means that learners confirm the coursework and assessment submitted is their own.

When all assessment work has been submitted the course tutor must ensure each learner signs the learner declaration section in the course assessment brief.

1.4 Assessment Overview

The assessment overview section in the assessment brief must be signed by **both the course tutor and the learner**.

The date the assessment brief was given to learners must be recorded.

The date all assessments were returned to the course tutor must be recorded.

This recording process ensures that the assessment brief has been distributed to the learner by the tutor and all assessment task elements have been submitted by the learner.

1.5 Tutor Marking Review

Some courses may have a course assessor who is not the course tutor. The course assessor must be clearly identified in the assessment grading and recording process.

In the tutor marking review section of the assessment brief tutors/assessors must confirm that they have graded all assessment task elements and course assessments.

Tutors/assessors must clearly document if the learner has or has not completed all assessment tasks successfully.

2. Grading and Feedback

2.1 Grading

Assessors must complete all elements of the course marking sheet to award the learner their course grade.

Assessors will grade using the specified grading bands and outline the following:

The Assessment Criteria – Outline the learning outcome(s) the assessment is being graded against.

Allocation of Marks – Assessors will tick if the learning outcome has been achieved through successful completion of the relative assessment.

Evidence of Assessment – This must include the Assessment Title and Number. If there is an affiliated worksheet or handout allocated to the assessment the worksheet number must also be clearly outlined.

Grade Awarded – Assessors must specify the graded awarded and sign to validate the grade given to the learner. Date of grade issue records the date the grade was awarded by the course tutor.

2.2 Learner Feedback

Assessors must record the mode of feedback and date of feedback issue to the learner.

Overall course feedback to learners should contain the grade awarded to the learner as well as specific assessment related portfolio of work /skills demonstration feedback.

Feedback should be communicated in line with the learner's own preferred communication method and in line with SJOGCS13 Policy on using a Total Communication Approach.

3. Internal and External Verification

The course assessor must follow the process of preparing for internal and external verification.

All learner portfolios and assessment must be presented by the course assessor for internal/external verification.

The assessor is required to complete the course assessor section of the Lifelong Learning Internal Verification Submission Checklist. (See Appendix 1).

The assessor must present each learner portfolio as follows:

Portfolios

- 1. a) Module Name
 - b) Module Code
 - c) Learner Name
- 2. Completed assessment brief signed by the learner and tutor/assessor.
- 3. Completed marking sheet to include grading and feedback signed by module(s)/course assessor.
- 4. Evidence of learner assessment work Clearly signposted and audiovisual work stored in the appropriate online location.

4. Learning Outcomes Mapping

Award Title:	Quantity and Number
Award Type:	Minor
Framework Level:	1
Award Code:	M1N05
Credit Value:	10
Assessment Technique:	Portfolio of Work

Please note below all learning outcomes that must be achieved and evidenced for a learner to achieve a successful grade.

Module Learning Outcome	Assessment Technique(s) / Tasks
LO 1 Name one- and two-digit whole numbers from 0-10	Assessment 1
LO2 Recognise the relationship between numerical value and groups of objects, up to and including 10.	Assessment 2
LO3 Record one- and two-digit numbers.	Assessment 3
LO4 Recognise the language of mathematics in everyday situations using elementary language, e.g. greater than, less than, bigger than, farther than	Assessment 4
LO5 Apply number bonding between 0 and 10.	Assessment 5

5. Staff Supporting Assessment Agreement

(Only to be completed by staff who are supporting learners availing of learning support to complete assessment)

Supporting Staff Agreement	Initial
I will:	
Agree a time with the learner to provide learning support	
in order to assist the learner's independent completion	
of course and assessment related work.	
To add this learning support time to our weekly	
timetable.	
Support the learner to ensure they have signed and	
dated their assessment brief	
Support the learner to record their assessment	
submission date, deadline and encourage contact with	
tutor if required	
Encourage the learner to keep work safe and secure at	
all times	
Support the learner to complete student feedback and	
course evaluation	
Facilitate independent learning activities	
Encourage learning opportunities and skills use from	
course where appropriate	

5.1 Assessment Brief – Quantity and Number

Learner Name:	
Module:	Quantity and Number
Module Code:	M1N05
Level:	1
Technique:	Portfolio of Work
Grading:	S = All assessments are completed
	satisfactorily
	R = Assessment incomplete or not completed
	satisfactorily
Assessment	
Start Date:	
Assessment	
Submission	
Deadline:	

Programme Module Title:	Community Education
Component Title and Code:	Quantity and Number M1N05
Level	1
Assessment Technique	Portfolio of Work
Weighting	100%
Agreed Deadline	

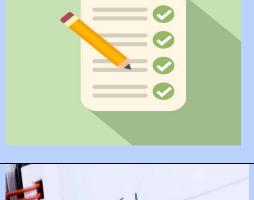

You can present your work in the way that works best for you. *Making a Poster*

Making a Poster Making a Video Using Worksheets

You must complete all the 5 assessments

Guidelines:

Within this module you will become familiar with recognising numbers from 0-10. You will recognise the relationship between the numerical value and groups of objects. You will also apply number bonding.

Criteria:

QNI – Name one and two digit whole numbers from 0-10.
QN2 – Recognise the relationship between numerical

value and groups of objects, up to and including 10.

QN3 – Record one and two digit whole numbers.

QN4 - Recognise the language of mathematics in everyday situations.

QN5- Apply number bonding between 0-10

Title Assessment 1 – QN1: Guidelines

You will need to name one and two digit whole numbers from 0-10.

How Will You Do This: Activity One:

- You will take part in a discussion about the numbers from 0-10.
- You can either write out the numbers or point to the numbers on a number chart.
- You will then need to make a poster incorporating the numbers from 0-10.

Activity Two:

 You will need to identify numbers that are used in everyday life and make a poster of same.

Name one and two digit whole numbers from 0-10.

How They Did This: Activity One:

- You will need to complete a worksheet on matching numbers.
- You will need to write/trace the numbers out in order from 0-10.

Activity Two:

- You will need to write out your phone number, age and address.
- You will need to match a number sequence with numbers 0-10.

Activity Three:

 You will draw and cut numbers 0-10 to make a poster.

Learning Outcome:

Recognise one- and two-digit whole numbers from 0-10.

Title Assessment 2 – QN2: Guidelines:

Recognise the relationship between numerical value and groups of objects, up to and including 10.

How You Will Do This: Activity One:

 You will complete a range of worksheets with visuals representing each number and write the value under each image.

 You will make a poster representing the visuals you worked on in activity one.

How You Will Do This: Activity One:

- After a group discussion you will write the numbers up to 10.
- Make your own individual poster exploring the numbers from 0-10.
- You will cut out the numbers from 0-10 and make a group poster.

Activity Two:

 You will make your own video counting from 0-10.

Learning Outcome:

Recognise the relationship between numerical value and groups of objects, up to and including 10.

Title Assessment 3 – QN3: Guidelines:

You will record one- and two-digit whole numbers.

How You Will Do This: Activity One:

 You will take part in a discussion about the numbers you have learned to date.

- You will recognise numbers from a paragraph printed on a worksheet.
- You will count a group of objects that are in the classroom and make note of the number.
- You will participate in a group quiz identifying number on the flash cards.

Learning Outcome:

Record one- and two-digit whole number.

Title Assessment 4 – QN4: Guidelines:

Recognise the language of mathematics in everyday situations.

How You Will Do This: Activity One:

- You will take a photo of a bus timetable.
- You will discuss this bus timetable as part of a group.
- You will become familiar with the language of mathematics in this timetable.

Activity two:

 You will gather photos of the bus timetable exercise and make a group poster.

Title Assessment 5 – QN5: Guidelines:

You will apply number bonding between 0 and 10.

Activity one:

- You will recap the numbers you have learned in this module from 0-10
- You will engage in a group discussion about number bonding between 0 and 10.
- You will complete worksheet exploring the addition and subtraction of numbers.

Learning Outcome:

Recognise the language of mathematics in everyday situations.

Learner Declaration (Learner to complete this section)
