Being tested for Coronavirus in a test centre.
	Coronavirus is a new virus. Coronavirus is also called COVID-19.
	Coronavirus can affect people's lungs and airways. It can make people feel sick.
	Coronavirus can spread from person to person.
	People who have Coronavirus might have: A fever A cough Shortness of breath.

|	
	If I have these symptoms or if I am worried, I should phone my G.P. or ask staff for help.
	My GP might say I need to be tested for Coronavirus.
  	I might be tested in a special test centre or I might be tested in my car.
	I will get a text message to tell me to come to the test centre car park.
	I will get in the car and staff will drive me to the car park.
	When I arrive at the car park, I will meet the testers. They will be wearing masks and goggles and gloves.

	The testers will give me a mask to wear.

I might be asked to stay in the car. I might be asked to walk inside the test centre. |
	The testers will take my temperature with a special thermometer.
	They will ask me to open my mouth. They will put something called a swab at the back of my throat. I will need to open my mouth wide.
	They will also swab my nose.
	It does not hurt!
	Altogether it only takes about ten minutes. Then I can go home!
	My GP will let me know the results in a few days' time.
